

# Create IBM Watson IoT Platform And Device:

The screenshot displays the IBM Watson IoT Platform web interface. The main heading is "Browse Devices". Below it, there are two tabs: "All Devices" (selected) and "Diagnose". A brief description states: "This table shows a summary of all devices that have been added. It can be filtered, organized, and searched on using different criteria. To get started, you can add devices by using the Add Device button, or by using API."

A search bar labeled "Search by Device ID" is present. To the right of the search bar, there is a "Device Simulator" toggle switch and a filter icon. Below the search bar is a table with the following columns: Device ID, Status, Device Type, Class ID, Date Added, and Descriptive Location.

<input type="checkbox"/>	Device ID	Status	Device Type	Class ID	Date Added	Descriptive Location
> <input type="checkbox"/>	BME280_Sensor	Disconnected	ESP32_Controller	Device	5 Nov 2022 13:46	

At the bottom of the table, it says "Items per page: 50" and "1-1 of 1 item". On the right side of the table, it says "1 of 1 page" with navigation arrows.

The bottom of the image shows a Windows taskbar with various application icons, a search bar, and system status information including temperature (29°C), weather (Haze), and date/time (4:10 PM, 11/18/2022).
